

Fig. 2A. Some bands in highlighted boxes appear duplicated

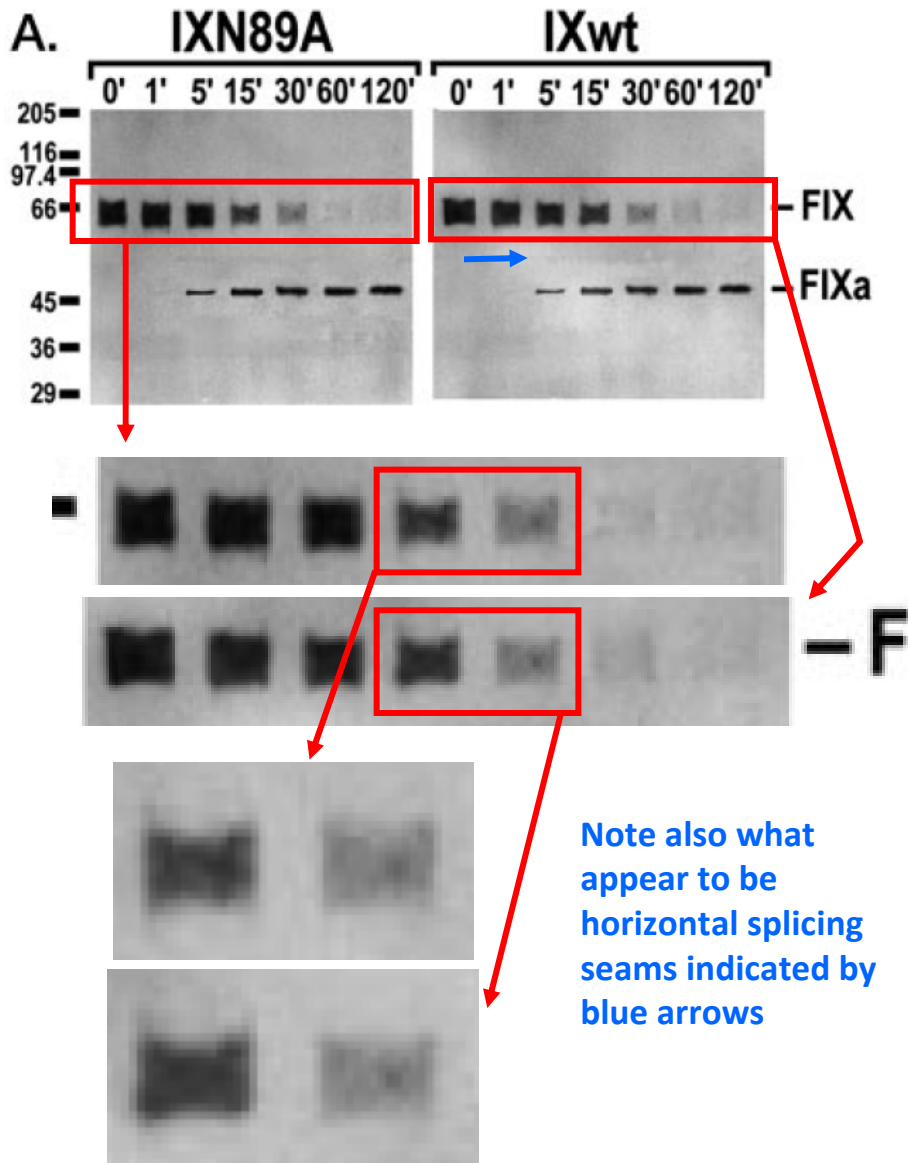

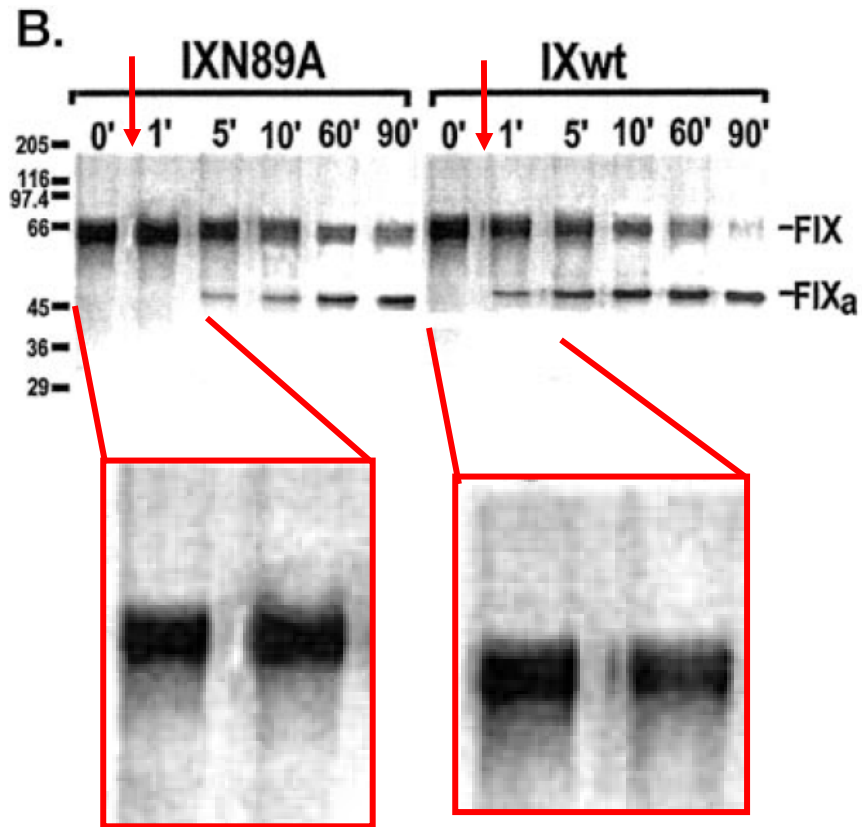

Fig. 2B. Very odd gap between 0' and 1' lanes, in both panels

Is the first lane of both these gels the same?

Fig. 1A/B. Exact same images used for experiment on two completely different cell types

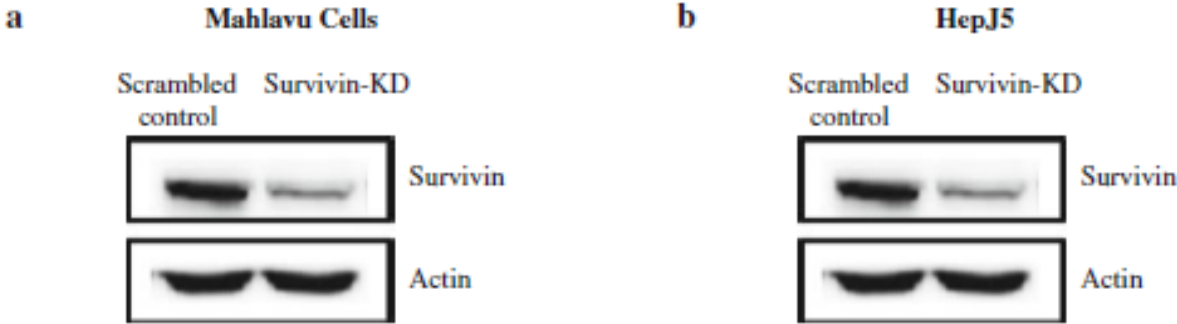

Fig. 4A. Mahlavu cells (in PMID 22258814)

Same image re-used for survivin blot in a different cell type in *Ann Surg Oncol* DOI:10.1245/s10434-012-2393-4 (PMID 22711176) – no page #s yet
